

Cocoricos aims to simplify the life of ICOs investors, by proposing an extremely simplified stream of purchase. Buying tokens in US\$ with a credit card is now possible.

OUR PARTNERS

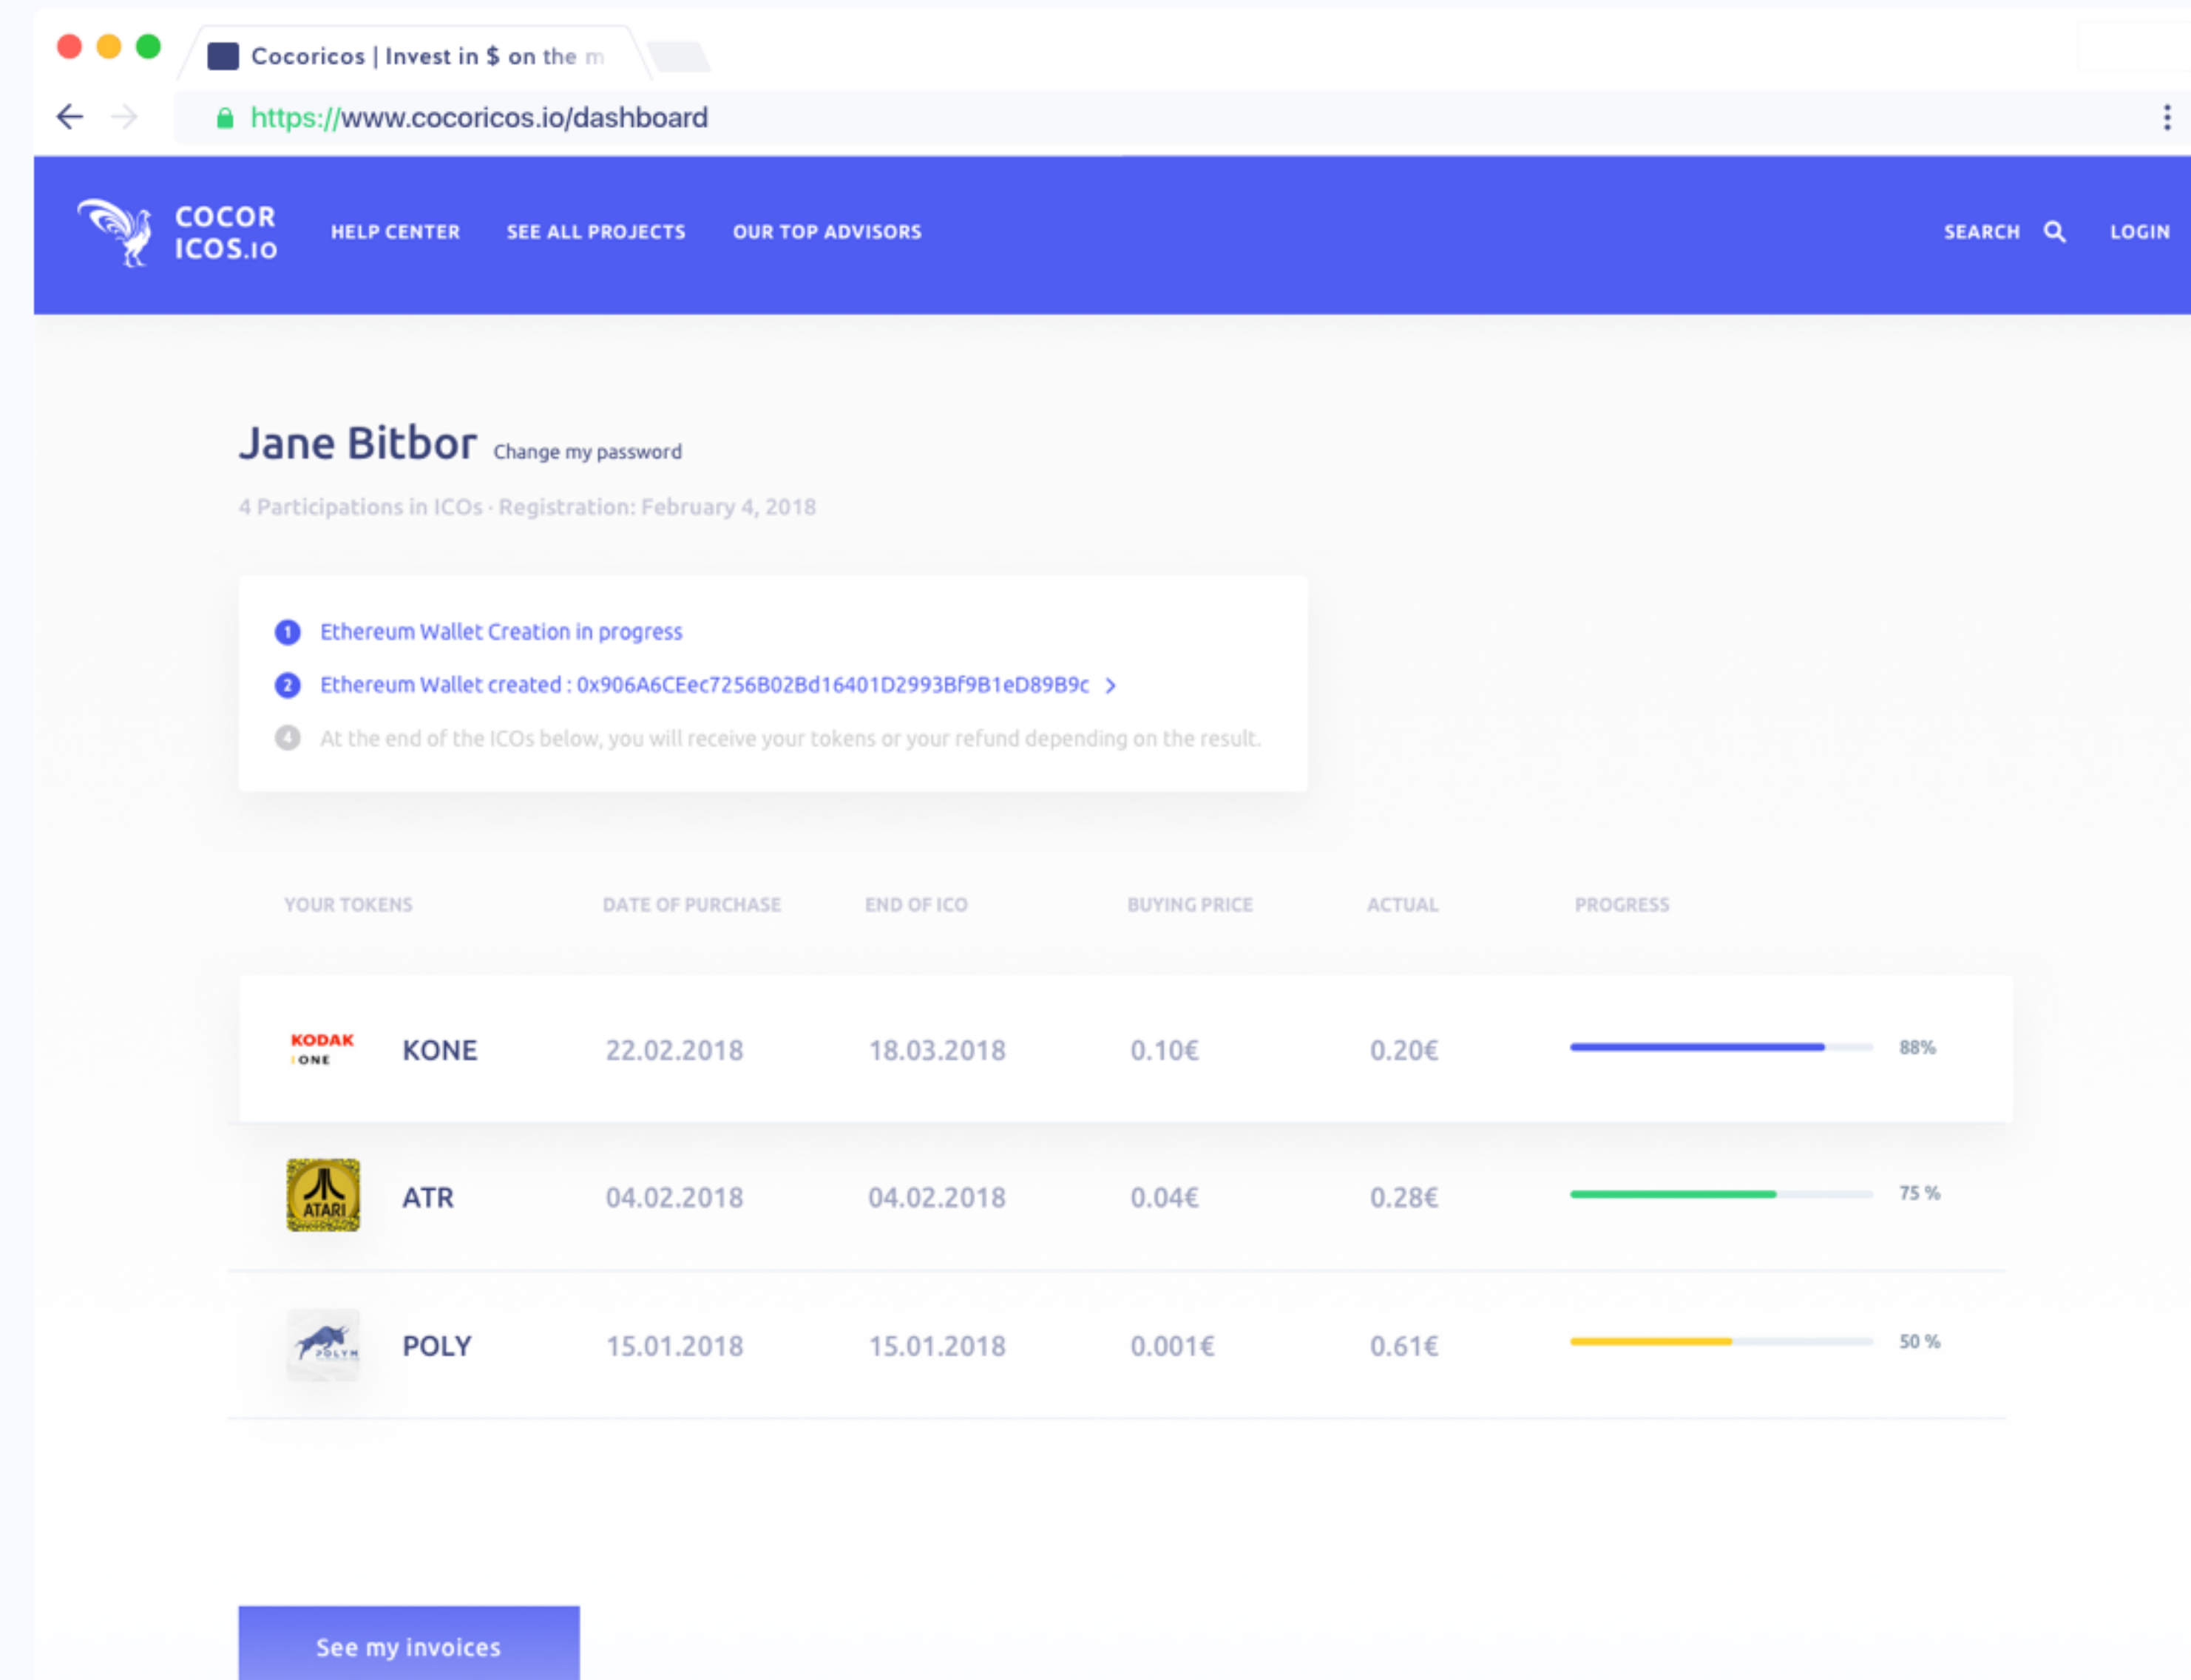

We simplify your ICO Trading Life

Be among the first Investors who will use this unique 4 steps flow.

Nothing more than what is absolutely needed will be asked.

Purchase from a simple Credit Card our rigorously filtered ICOs Tokens. We don't accept payments in cryptos yet.

Our portal is designed to allow users to easily choose which ICOs you wish to participate in and it adapts to your expectations through User Interviews & Analytics.

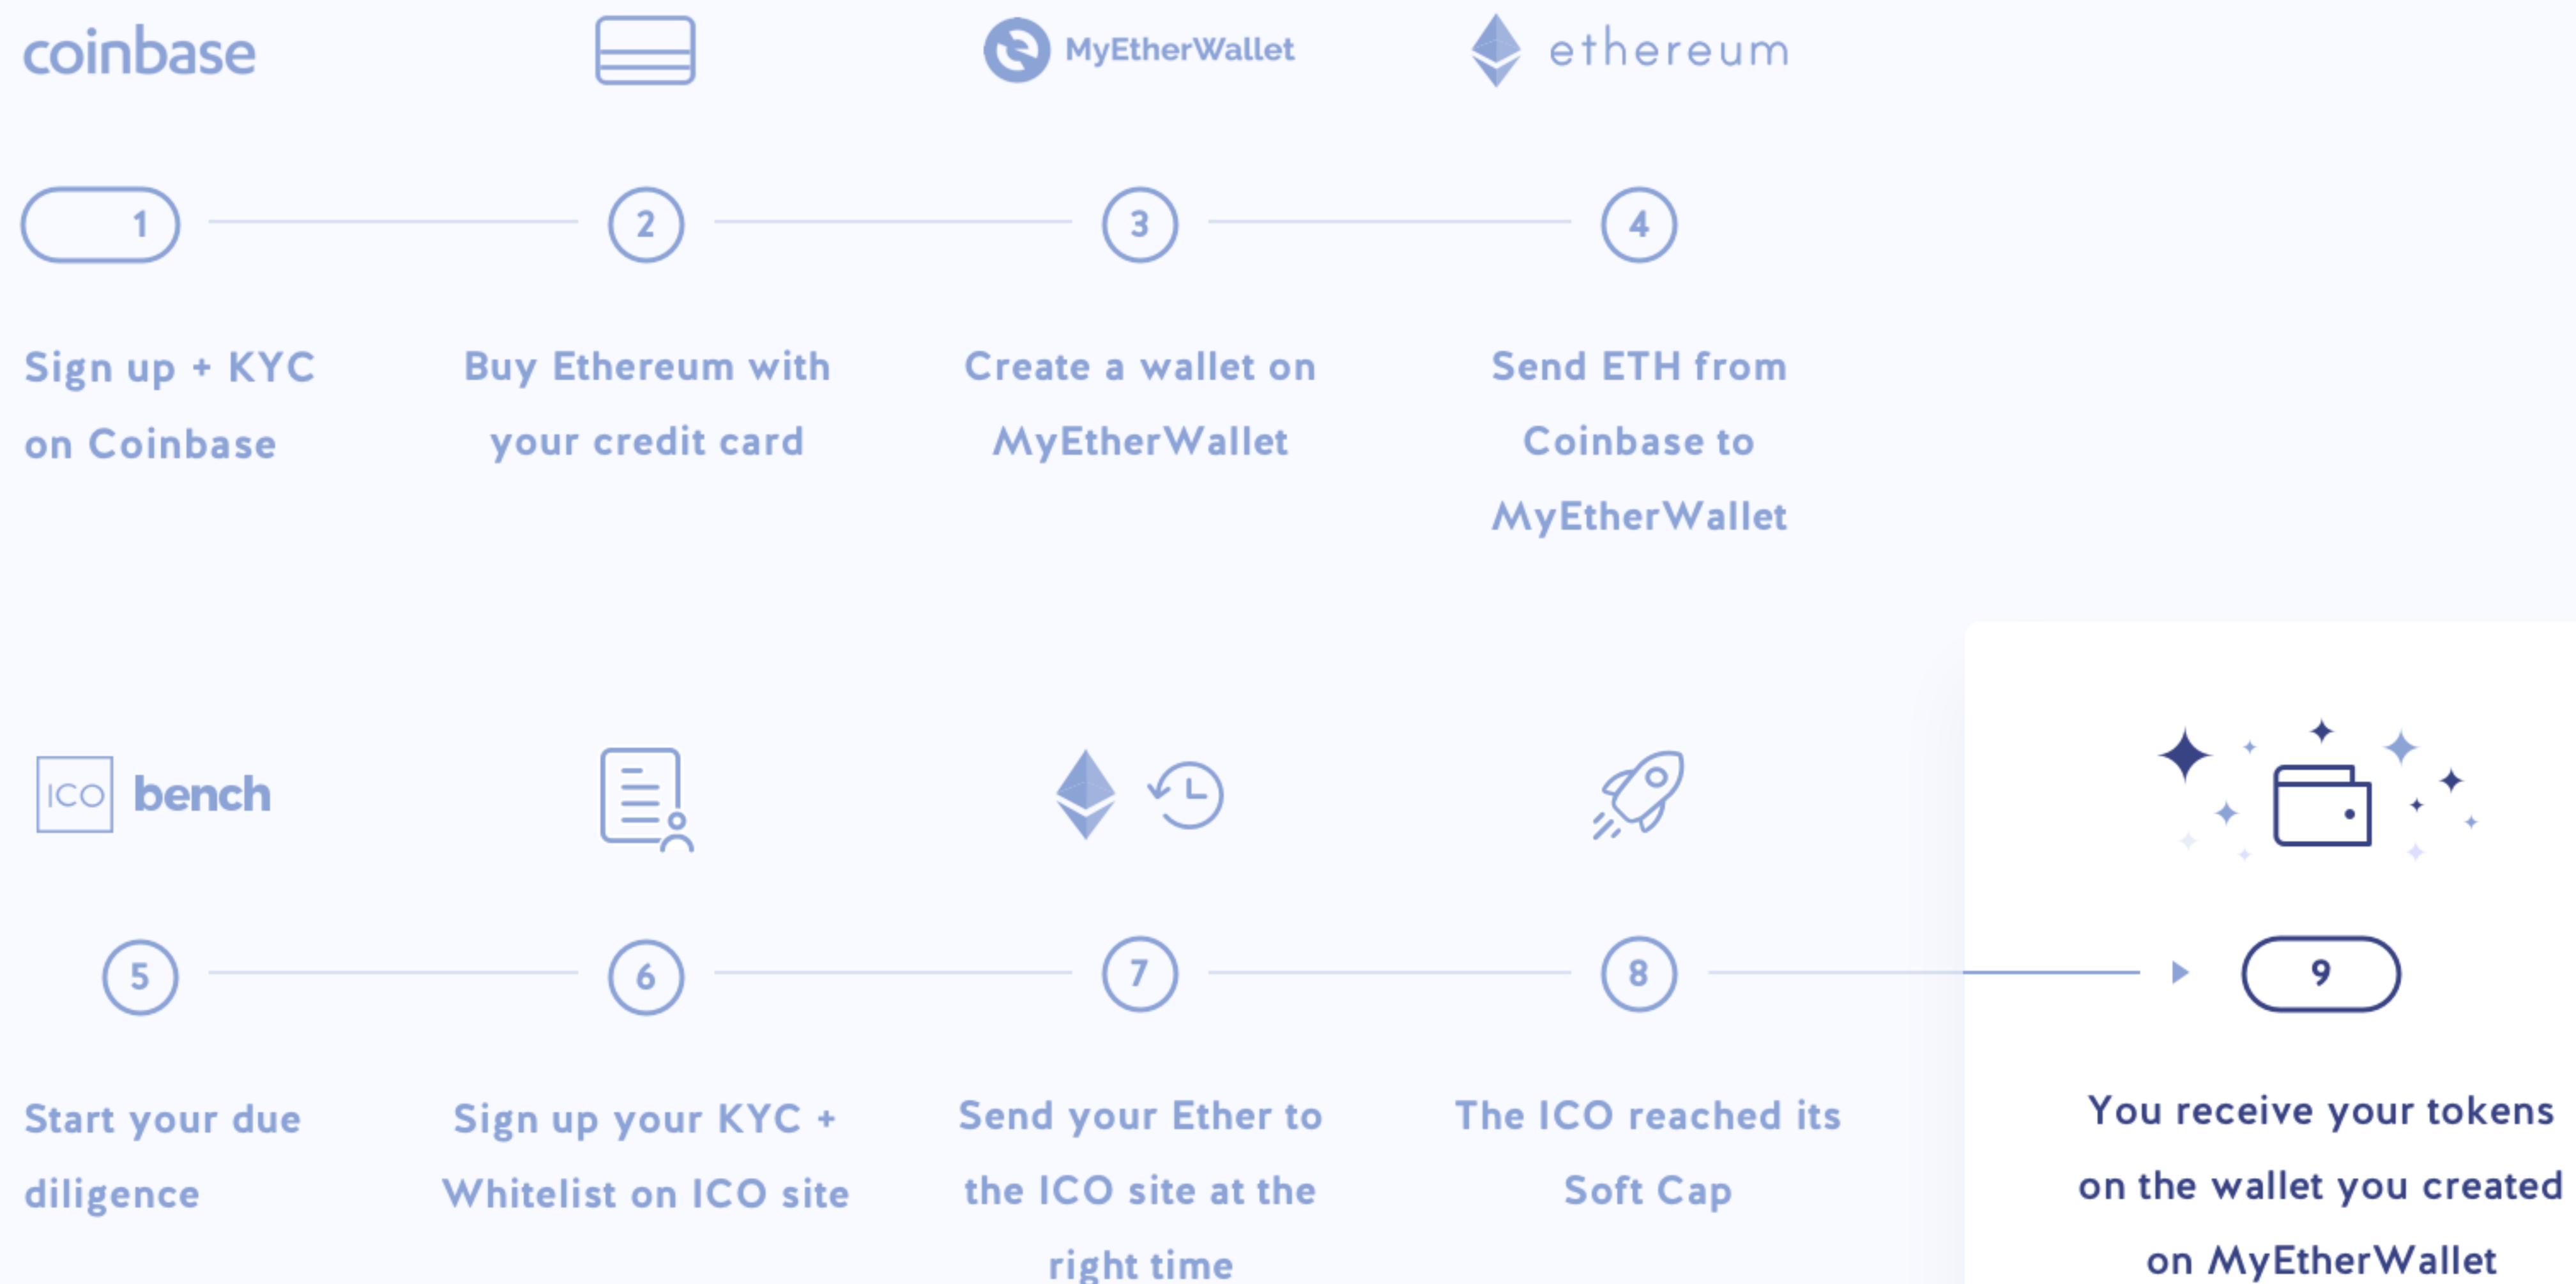

The screenshot shows the Cocoricos dashboard for user Jane Bitbor. The dashboard includes a navigation bar with links for 'HELP CENTER', 'SEE ALL PROJECTS', and 'OUR TOP ADVISORS'. The user's profile shows '4 Participations in ICOs - Registration: February 4, 2018'. A progress indicator shows 'Ethereum Wallet Creation in progress' and 'Ethereum Wallet created: 0x906A6CEec7256B02Bd16401D2993BF9B1eD89B9c'. Below this is a table of ICO participations:

YOUR TOKENS	DATE OF PURCHASE	END OF ICO	BUYING PRICE	ACTUAL	PROGRESS
 KONE	22.02.2018	18.03.2018	0.10€	0.20€	<div style="width: 88%;"><div style="width: 88%;"></div></div> 88%
 ATR	04.02.2018	04.02.2018	0.04€	0.28€	<div style="width: 75%;"><div style="width: 75%;"></div></div> 75%
 POLY	15.01.2018	15.01.2018	0.001€	0.61€	<div style="width: 50%;"><div style="width: 50%;"></div></div> 50%

At the bottom of the dashboard, there is a button labeled 'See my invoices'.

The World before Cocoricos

The Cocoricos' Way

Cocoricos teams, made up of experts in UX UI, Developers, Legal & Finance specialists, worked hard to offer the most simple, secure and easiest way to purchase tokens during Pre-Sale / ICO stages.

A Safe Payment Flow

Scheme representing Cocoricos' full payment flow

The Payment flow has been rigorously thought to secure your funds from the A to Z, even if there is no smart contract yet... with the help of notaries.

We make sure that the ICO will be able to meet our requirements for their smart contracts, these should be setup to automatically transfer the tokens to all expeditors' addresses if the ICO succeeded OR should refund the ETH to expeditors if the ICO failed.

①

You make an offer to buy \$100 of Tokens

The amount of tokens is calculated with 10% less (\$90) of the actual ETH price based on Coinmarketcap in real-time. You will get more tokens if the ICO is at the bonus stage

②

***\$90 of ETH is secured & you get a safe ETH wallet**

Your wallet is created and fully secured offline. \$90 go to a French Mandated Ministerial Officers Cabinet : « Alpha Notaires »

③

As soon as the ICO's smart contract is online and audited, your ETH are transferred to it.

You still keep your bonus as it was at the time you bought the Tokens.

④

You follow the progress of the ICO on your Cocoricos' dashboard

Our team will always be pleased to answer your questions in the chat or on Telegram.

⑤

Your KYC / Whitelist registration gets validated by the selected ICO

You can have to answer some quizzes. Cocoricos will only accept the clients who meet ICO's KYC / Whitelist requirements for their ICO.

⑥

The smart contracts execute transactions based on ICO's results

A strong panel of services that will help you save time

We are very focused on our customers' needs. We develop a favorable environment thanks to a strong mobilization of its teams of experts in CRM & Customer Research.

Simplicity

Simple and intuitive.
Everything is done to facilitate the approach of the investor :
Buy the ICO Tokens of his choice with a credit card

Don't miss the ICO

It means knowing how to listen, consider, interact, respect and be available to all customers

We secure funds

There can be no lasting relationship without trust, respect and loyalty. We are committed to being caring and responsible

Due Dilligence

We focus on quality, our ICOs have to pass through a filter of a total 107 questions in 9 different areas: General, ICO, Token, Team, Technical, Legal, Market, Partners, Finance

One-Time KYC

You don't have to restart a KYC for each ICO you want to sign up on. Use Cocoricos' KYC system which is GDPR compliant.

Standardized Whitelist

You don't have to sign up to many different whitelists, do it once and you're done. It can happen that the ICO needs you pass a quiz.

Testimonials

Mance Harmon (Hashgraph) : « There can be no real revolution unless it is accessible to everyone. Cocoricos has all the cards to fulfill this objective. »

Paul Kohlhaas (Consensys) : « The technology developed by Cocoricos adapts to the expectations of the entire Blockchain ecosystem. »

Nicolas Merle (Chain Ops) : « The blockchain and cocoricos make a good cocktail. If we want to democratize the ICOs among the widest audience, we need a portal that facilitates access to the purchase of tokens for those who do not have a wallet and even less other cryptos ».

Denis Lafont-Trevisan (Talao) : « Cocoricos is highly needed for the ICO market. Besides being present at its launch will open new exhibitions to the FIAT investing public ».

And many more...
